

Build your own "KillaJoule"

The KillaJoule was the world's fastest electric motorcycle for many years, with a top speed of over 270 mph (434 km/h).

The KillaJoule was retired in 2019. Its successor is the "Green Envy", built for over 400 mph (650 km/h).

You can learn more about the KillaJoule at www.KillaJoule.com, and the Green Envy at www.GreenEnvyRacing.com.

This paper art is free to use and reproduce in any way that promotes electric vehicles in a positive way!
